2. Complete an online application [here](#) (Don't forget to include your School Reference Form, Passport or Birth Certificate, and Year 11 and 12 school reports. If you have any queries please email earlyoffer@excelsia.edu.au <https://excelsia.edu.au/apply/early-offer-program/>

The Ian Potter Cultural Trust Grants

Closes 8 September

The Cultural Trust is committed to encouraging excellence and supporting a vibrant, world-class arts scene in Australia. The Cultural Trust offers grants up to \$10,000 to assist talented emerging and early career artists to take up professional development opportunities, usually overseas.

We support applicants who can demonstrate both initiative and exceptional talent, together with an ability to convert their ambitions to reality. In particular, we are looking for well-researched and planned projects that make the most of the time spent overseas.

University of Sydney – Why study Exercise Physiology or Exercise Science?

20 August. 4pm

A degree in Exercise Physiology or Exercise Science might sound fun, but where can it take you? How is being an Exercise Physiologist different from being a Physiotherapist? In this masterclass Associate Professor Kate Edwards will clear up some common confusions about studying sport/exercise degrees, and tell you why educating exercise professionals is so important for Australia’s future.

<https://www.sydney.edu.au/study/events-for-prospective-students/undergraduate.html>

Sports People - Employment in Sport

Established in 1996, Sportspeople was the first agency in Australia to offer a specialised sport recruitment service. Today Sportspeople remains a highly specialised agency offering a range of recruitment services to the broader sport, fitness and aquatics sector throughout Australia and New Zealand.

<http://www.sportspeople.com.au>

ACPE Schools Program – Sport, Rec, Dance

We are pleased to introduce the ACPE Schools Program. This exciting program has been specially designed for school students in Physical Activities and Sports Studies (PASS) (year 9 – 10), Personal Development, Health and Physical Education (PDHPE) (Year 11 – 12) as well as Dance.

We would like to invite your students on campus or online to gain a deeper understanding of syllabus content using state of the art equipment. These programs are free of charge and run throughout the year.

COST: Free

TRANSPORT: Schools to organise own transport to and from ACPE.

GROUP SIZE: Minimum 10 per group.

DATES: Contact us for availability.

University of Sydney – Become an Occupational Therapist

19 August. 4.30pm

Occupational therapists are experts in the everyday. We help people overcome barriers that prevent them from doing the activities (occupations) that they want to do or need to do in their everyday lives. These barriers could be caused by disability, injury, health conditions, ageing or other life circumstances or they could be caused by the environments in which people live or work. Occupational therapists come from the perspective of “What matters to you?” not “What’s the matter with you?” We focus on what is most important for each individual, group or community we work with – so this makes a career in occupational therapy challenging, exciting and rewarding.

Join us for this webinar and explore where a career in occupational therapy could take you

https://uni-sydney.zoom.us/webinar/register/WN_0EDD-IDIQNmDAux0gNYqjQ

Eating for the Planet

18 August. 6.30pm

Is it possible to feed a future population of 10 billion people a healthy diet within planetary boundaries? Four years ago, this question was posed to a group of doctors and dieticians from all over the world, and their response became the Planetary Health Diet – a way of eating created by scientists to bring together the health needs of humans with what our planet can afford.

By exploring simple food principles, the Planetary Health Diet charts a way to solve major health issues, and balance human needs with our impact on the environment in the age of climate change. Join public health advocate and CEO of VicHealth Sandro Demaio for a keynote talk, followed by a panel discussion with Alexandra Jones from The George Institute for Global Health, clinical dietician Jennifer Cohen and director of *That Sugar Film*, Damon Gameau as they discuss how we can all eat better.

<https://www.eventbrite.com.au/e/eating-for-the-planet-registration-112385018616?aff=cfiwhatson>

University of Newcastle – Joint Medical Program (JMP)

Applications close 30 September 2020. Late applications will not be accepted under any circumstances.

You need to have already registered and sat for UCAT.

Applications will open mid-August. You will have the opportunity to review your application after it has been submitted. For details and instructions on how to apply, please download the [online application instructions](#).

<https://www.newcastle.edu.au/joint-medical-program/how-to-apply>

Simulated UCAT Day Workshop: 2-Day program

16 August. 10am to 6pm

and 17 October. 10am to 6pm

Are you in year 10, 11 or 12 and considering a career in medicine or dentistry?

Then you are invited to attend and participate in our "Simulated UCAT Day".

This event will be conducted by the National Institute of Education in partnership in partnership with **UCAT Preparation Australia**, **MICAS** (Medical Interviews and Career Advice Services), & **PTTI** (ProTraining Tutorial Institute).

The workshop was primarily designed to cover fundamental techniques in navigating all five sections of the UCAT test and also participants to gain a better understanding of their own level of preparedness for the test. However, over the course of the years the program has evolved into a much more comprehensive and holistic exercise, which not only achieves its primary goal, but it is also exposing students to a wealth of knowledge about all other aspects of the journey into a medical degree. The latest update has seen the program grow into a 2-Day event as the sheer amount of content covered was too great to fit into a 1-day program.

<https://www.nie.edu.au/ucat-courses/simulated-ucat-day-workshop>

Indigenous Australian Engineering School (IAES)

January 2021

Years 10, 11, 12

The Indigenous Australian Engineering School is an annual event established by Engineering Aid Australia. Open to 20 Aboriginal and Torres Strait Islander students entering Years 10, 11 and 12, the six-day live-in school gives students a taste of engineering as a university course and career. It involves hands-on and challenging activities within the Faculty of Engineering as well as site visits to engineering companies.

For more information about the Indigenous Australian Engineering School, please register here:

Bachelor of Data Science at S P Jain

Global demand for data science and computing expertise exceeds supply, with predictions of a major shortage of analysts for at least the next 10 years. For graduates in Data Science, this presents a high potential employment opportunity.

SP Jain's Bachelor of Data Science (BDS) is a 3-year undergraduate program designed to prepare graduates who can conduct data-driven investigations and visual and advanced analytics by acquiring and managing data of all types. Through this program, students will develop an in-depth understanding of data science and the techniques for analysis of quantitative and qualitative data to arrive at solutions. They will be able to identify patterns in order to predict trends from analysing data of various sectors such as manufacturing, banking and finance, retail and healthcare.

<https://www.spjain.edu.au/programs/undergraduate/bachelor-of-data-science>

2020 Cyber Teacher Virtual Workshop Series

- **Term 3:** 20th August ([REGISTER](#)) | 17 September ([REGISTER](#))
- **Term 4:** 15th October ([REGISTER](#)) | 19 November ([REGISTER](#))

The course is recommended for those teaching Digital Technologies, Information Technology, Careers and STEM subjects from Y7-12. Teachers will develop a baseline understanding of the cyber security ecosystem in Australia, and be equipped with classroom-ready curriculum and resources to teach students.

Bachelor of Data Science at S P Jain

Global demand for data science and computing expertise exceeds supply, with predictions of a major shortage of analysts for at least the next 10 years. For graduates in Data Science, this presents a high potential employment opportunity.

SP Jain's Bachelor of Data Science (BDS) is a 3-year undergraduate program designed to prepare graduates who can conduct data-driven investigations and visual and advanced analytics by acquiring and managing data of all types. Through this program, students will develop an in-depth understanding of data science and the techniques for analysis of quantitative and qualitative data to arrive at solutions. They will be able to identify patterns in order to predict trends from analysing data of various sectors such as manufacturing, banking and finance, retail and healthcare.

Eating for the Planet

18 August. 6.30pm

Is it possible to feed a future population of 10 billion people a healthy diet within planetary boundaries? Four years ago, this question was posed to a group of doctors and dieticians from all over the world, and their response became the Planetary Health Diet – a way of eating created by scientists to bring together the health needs of humans with what our planet can afford.

By exploring simple food principles, the Planetary Health Diet charts a way to solve major health issues, and balance human needs with our impact on the environment in the age of climate change. Join public health advocate and CEO of VicHealth Sandro Demaio for a keynote talk, followed by a panel discussion with Alexandra Jones from The George Institute for Global Health, clinical dietician Jennifer Cohen and director of *That Sugar Film*, Damon Gameau as they discuss how we can all eat better and contribute to a healthier world.

Teacher Education Degrees Deakin University CASPer Webinar

Deakin CASPer test webinar

Wednesday 16 September. 5–6pm Online

Are you interested in becoming a teacher and looking to start your studies at Deakin in 2021?

Students applying for teaching degrees at Deakin must successfully complete the CASPer test – an online situational judgement test that measures non-academic suitability for teaching.

Join Professor Damian Blake, Head of School and School Manager Jo Collins to learn more about preparing for CASPer. The webinar will cover:

- how CASPer works and what to expect on test day
- which teaching courses require you sit to CASPer
- helpful tips on how to prepare for the CASPer test
- upcoming CASPer dates, how to sign up and reserve a test
- why students are required to sit the test
- how is CASPer assessed? What does this mean for you?

Careers In Shipping

The shipping industry plays a vital role in international trade and in the economic progress of most countries. Because of its international involvement and operations it is different in many respects from other industries. Because of this it offers interesting and diverse career opportunities.

Shipping operates in a keenly competitive international market and as the growth in international trade increases and ships to carry the trade are in greater demand, career prospects also improve.

Employment opportunities arise for bright young people with or without their higher school certificate or university degrees. On-the-job training is available for everyone to learn about the shipping industry. Positions also become available for graduates or those who already have professional qualifications. The shipping industry attracts a wide range of disciplines including accounting, IT, customer service, marketing, logistics and international business. In more specialised sectors of the industry, ship chartering and broking skills are often in demand.
