KLA CAREERS NEWSLETTER – AUGUST 2021

SPECIAL MESSAGE REGARDING EVENTS LISTED AND COVID-19

Events listed are presented as reported from the home website at the time of collection from the news source. We strongly advise you check directly with the event organisers regarding the delivery of the event due to current restrictions.

HSC SUBJECT KLA / FACULTIES

CAPA

Dance, Drama, Music, Visual Arts

Interested in Uni study overseas for a career in acting, music, theatre or dance?

If you are interested in performing arts study, admittedly it is difficult to know where to start. Are you a dancer, a musician, an actor or interested in all three? Do you want a conservatory program or a conservatory-style program where you are also encouraged to explore other liberal arts courses?

The good news is, the options are endless, but that in itself can add confusion to the already difficult question of: 'which performing arts programs should I apply to?'

A good place to start is researching universities that are listed at the top of performing arts rankings (according to [QS World University rankings](#)) - schools that have earned the reputation for being the best of the best thanks to their high calibre faculty, first class performing arts facilities and famous alumni.

<https://www.crimsoneducation.org/au/blog/interested-in-a-career-in-acting-music-theatre-or-dance-heres-what-the-worlds-best-performing-arts-schools-have-to-offer>

AIE Talks Series

If you want to see anything in the games design and animation field there is going to be loads of hours to explore here:

https://info.ait.edu.au/workshop_mastertalks_june21

Torrens Scholarships Creative Careers receive 20% off their course fees

- September 2021 intake (Trimester 3): 11:59pm AEST on 30 August 2021

- February 2022 intake (Trimester 1, 2022): 11:59pm AEDT on 31 January 2022

At Billy Blue College of Design at Torrens University Australia, you don't just study design and creative technology, you're immersed into a world of thinkers, problem-solvers and rule-breakers. A world where innovation and technology meet traditional design thinking concepts to solve real-world problems. We're passionate about creative technology and bridging the world of artificial intelligence, cloud computing, software engineering, development and programming with traditional design concepts.

- Creative Technology

- Undergraduate & Postgraduate Artificial Intelligence

- Postgraduate Cloud Computing

- Game Design, Development and/or Programming
- Software Engineering
- Digital Transformation & Creative Intelligence

UTS Animal Logic Academy Open Studio

22 September, 2021. 3:30 pm - 7:00 pm

UTS Animal Logic Academy will be offering an exclusive in-studio experience.

Book in for a session to hear from our [Academy Leads](#) and a special industry guest. Find out more about the different job roles in 3D animation and effects production and how specialising in one of these during your Masters studies will better prepare you for employment in the industry. You can also speak to current students about their experience studying in the accelerated industry-focused Masters.

Tour the studio and get a sneak-peek of the professional-style 3D animation projects students at the Academy develop together, including our most recent short film 'Spirit'.

AFL Sports Ready Traineeships

AFL SportsReady recruits people who are generally aged between 16 – 25 including school students, recent school leavers, adults returning to work and matches them with our host employers, supporting them to complete a traineeship that leads to a quality, on the job experience and nationally recognised qualifications.

The duration of a traineeship will depend on the qualification, but can include the following:

Full-Time up to 1 year (38 hours per week) – Certificate III or Certificate IV level

Part-Time up to 2 years (minimum 15 hours per week) Certificate III or Certificate IV

School-Based 2 years (completed over years 11 & 12) – Certificate II or III

<https://aflsportsready.com.au/traineeship/>

MATHS and SCIENCE

Senior Science, Biology, Chemistry, Earth and Environmental Science, Physics

Join The Drop Bears Robotics Team Information Session

Sat 21 August

We are looking for high school students with a passion for engineering to join a team of like-minded peers dedicated to furthering their STEM skills in the First Robotics Competition.

<https://www.thedropbears.org.au/>

Dr Karl's Great Moments in Science

15 August, 3 – 4.30pm

Explore the wonderful world of science with Dr Karl, from the humorous to the planet-saving, as he tackles some of the biggest ideas today.

Dr Karl explores great moments in science answering questions such as: How do whales keep on swimming after they die? Why are we running out of sand? Is it possible to reverse climate change?

The talk will be followed by a Q&A with the audience. Bring along all your burning science questions to ask Dr Karl – be they chemical, physical, technological or astronomical!

<https://sydneyscience.maas.museum/event/dr-karl/>

Notre Dame Early Offer Online Drop-In Sessions - All Faculties

Friday 3 September 3:30-5:30pm

Nursing

Come along to our targeted degree sessions and speak with our friendly advisors who can talk you through our exciting [programs](#) and what to expect from uni life, plus assist you in finalising your application. Hear from our student ambassadors about the transition to uni and all the fun and fantastic opportunities Notre Dame offers.

Southern Cross University Science and Environment

4:30pm to 4:50pm Tue 10 August 2021

Find solutions to the problems faced by our natural environment. This online information session is presented by Lachlan Yee and Amanda Reichelt-Brushett.

<https://discover.scu.edu.au/live-Q-A/event-details/1013>

Southern Cross University Engineering

6:30pm to 6:50pm Tue 10 August 2021

Are you curious about our world and what makes it work? This online information session is presented by Ricardo Vasquez-Padilla.

<https://discover.scu.edu.au/live-Q-A/event-details/1031>

Southern Cross University Speech Pathology

6:00pm to 6:20pm Thu 12 August 2021

Prepare for entry into the rewarding career of speech pathology and change lives. This online information session is presented by Alexia Rohde.

<https://discover.scu.edu.au/live-Q-A/event-details/78>

Careers with STEM: Apprenticeships and Traineeships

25 August. 12.00noon

University is great for some, but apprenticeships and traineeships combine the best of both worlds. You get to study at TAFE working towards a VET qualification certificate, and work on-the-job, learning and earning a wage. In some cases, the government will even cover your training fees. Winning!

To find out more about Apprenticeships and Traineeships, and hear from those who have carved a successful career path via VET, join this webinar.

<https://www.eventbrite.com.au/e/careers-with-stem-apprenticeships-and-traineeships-tickets-162000023431?aff=ebdsoporgprofile>

QANTAS Apprenticeships

We advertise available positions on our [Qantas Careers](#) and [LinkedIn](#) pages, typically in August/September of each year.

We pride ourselves on conducting a fair, equitable, transparent and accurate recruitment process in order to recruit the best candidates. To achieve this, we conduct an extensive and thorough screening and selection process. Below is an outline of what to expect:

Qantas Engineering offers a variety of exciting apprenticeships in aircraft maintenance and other trades. We'll offer you the opportunity to train and gain experience in a world class organisation with first class facilities, and become a qualified and highly trained tradesperson.

https://www.qantas.com/ie/en/about-us/qantas-careers/programs/apprenticeship-program.html?int_cam=ie%3Aqantas-careers%3Aheading-and-links%3Auseful-links%3Aen%3Ann

Virtual At the Zoo

6 August

Feathered Friends – 11.30am to 12pm

Majestic Marine Animals – 2pm to 2.30pm

Can't leave home right now? We're bringing you Virtual Zoo Lockdown Lessons streamed straight to your living room for FREE to help get through lockdown. Connect virtually with some of Taronga's amazing animals with digital lessons led by a qualified member of our teaching staff that allows your students to be engaged by getting up close (digitally) to our fascinating animals via video link.

<https://taronga.org.au/education/digital-programs-online-resources/virtual-zoo-lessons>

Work Experience 2022 at the Zoo – Heads Up

Applications for 2022 Work Experience placements will open on Monday 5 October 2021.

Sydney Taronga Zoo Sydney offers school work experience opportunities for students in years 10 – 12 who are interested in pursuing a career in zoo keeping, animal care, tourism or zoo horticulture.

<https://taronga.org.au/get-involved/school-work-experience/sydney>

Meet a Keeper at Taronga

Thursday 21 October 2021

The Meet a Keeper program is a day-long experience for school students who are fascinated by the work the Education team does and those after a better idea of what it's like to work at our Zoos or in captive animal care.

The program begins with a guest speaker presentation by a talented panel of Taronga Zoo Keepers, Educators, Human Resources, Taronga Training Institute staff and YATZ members in which students can learn about all aspects of caring for animals including the qualifications required, core responsibilities of a keeper, future career opportunities and more.

<https://taronga.org.au/education/sydney/full-day-programs/meet-a-keeper>

Study at the Zoo – Taronga Zoo

We have a deep commitment to education. To contribute to a shared future for wildlife and people, apply to join one of our formal or informal courses today.

[Certificate courses](#)

[Bachelor degree](#)

[Masters degree](#)

[Short courses and workshops](#)

[Internships and placements](#)

[Veterinary professional training](#)

<https://taronga.org.au/education#studyattaronga>

Youth at the Zoo

Please use the [Expression of Interest form](#) to add your name to the Expressions of Interest list for the next intake, typically May and November each year.

Taronga's Youth at the Zoo program (YATZ) gives teens the opportunity to learn more about how our Zoos operate, develop skills for the future and spend time with like-minded people who share a passion for animals.

Please note this allows us to contact you and invite you to apply at a later date and is not a wait list or confirmed application. You should receive a confirmation email once adding your contact details to the form – if you do not – please carefully check your email Junk Box as it means you may not receive emails from us inviting you to apply <https://taronga.org.au/education/youth-engagement>

Virtual Visits – Mathematics Careers

Have one of our maths researchers take over your classroom

Book in for a one hour virtual visit from one of our mathematics researchers and discover maths puzzles, career tips and have the chance to ask them anything.

This virtual visit with a mathematician includes:

- Introduction to careers with mathematics
- Overview of researcher's field of expertise
- Q&A session on HSC & ATAR tips, University, careers – anything!
- Hands-on puzzles for students to do in real time

<https://sydney.edu.au/science/industry-and-community/community-engagement/virtual-visits.html>

Anything and Everything on Surveying

Surveying is the measurement and mapping of our surrounding environment using mathematics and specialised technology. Land surveyors are involved with a diverse variety of projects from land subdivision to tunnel building and major construction. Licensed or registered surveyors are experts in the profession who interpret and navigate legal aspects of land ownership. They also give advice and provide information to guide the work of engineers, architects and developers.

Unearthing Science for budding scientists in your Year 9 and 10 students

Registration deadlines Term 4 – 27 August 2021

Introducing rural and regional students to the concept of independent scientific investigation, with a focus on environmental and ecological research.

Unearthing Science is exclusively available for high schools in regional & rural areas of New South Wales.

The program is free and available to run in any school term, and you can register for any term ahead of the dates listed below corresponding to that term.

<https://www.sydney.edu.au/science/industry-and-community/community-engagement/unearthing-science.html>

Justice for the Oceans – UNSW

21 August. 3pm

Healthy oceans are fundamental to a healthy planet. From phytoplankton, the tiny ocean plants that produce the oxygen we breathe, to the rich diversity of other ocean plants and creatures, we depend on our oceans to survive and thrive.

But our oceans are both under threat and pose a threat. Pollution, overfishing and the destruction of coral reefs are killing them from within, while the impacts of climate change – rising sea levels and storm surges – are transforming the ocean from friend to foe for the many millions who live on the coast.

Globally-renowned ocean defender Dr Ayana Elizabeth Johnson is clear: saving the oceans is key to fighting the climate crisis. Join us for a conversation between Ayana Elizabeth Johnson and leading Australian marine scientist Emma Johnston

<https://www.eventbrite.com.au/e/justice-for-the-oceans-registration-163455516851?aff=cfiwhatson>

Future Medicine – UNSW

1 September. 6.30pm

The supersonic development of several highly-effective COVID-19 vaccines has shown what can be achieved.

So why, despite today's researchers, clinicians and innovators having so many powerful tools at their disposal, do so many promising breakthroughs take so long to reach the doctors' consulting rooms?

From the tangible impact of genomics and big data, and the huge potential of personalised medicine, to the creative use of new technology, hear from a panel of world class medical experts – Anushka Patel, Louisa Jorm, Anand Deva and Joseph Powell with Vlado Perkovic – as they discuss key discoveries, and what the future of medicine could look like for us all.

<https://www.eventbrite.com.au/e/future-medicine-registration-157903147565?aff=cfiwhatson>

Transport for NSW Excellent career opportunities for those interested in Engineering

Transport for NSW The Road/Electrical Designer and Traffic Engineering Officer in Training Programs are offered by Transport for NSW in conjunction with Western Sydney University, The College. These programs are available to people looking for a career in engineering, while at the same time studying towards a Civil/Electrical Engineering degree. Please contact RDITCoordinator@transport.nsw.gov.au for more details.

Nursing and Midwifery Courses: English language proficiency

Nursing and midwifery courses: additional English language proficiency requirements

Before you can start studying to become a registered nurse, the Australian Nursing and Midwifery Accreditation Council (ANMAC) requires you to demonstrate a high level of English language proficiency. To do this, you must do **one** of the following:

- Declare that:
 - English is your primary language (ie the language you primarily use for reading, writing, listening and speaking and the language you know best and are most comfortable with)
 - before the course start date, you will have completed six years of schooling in English – including at least two years of secondary school in English – in one of the following countries: Australia, New Zealand, South Africa, United States, Canada, Republic of Ireland, United Kingdom. All the requirements for schooling are specified below.
- Undertake an English language proficiency test accepted for entry to your nursing course no more than two years before the course start date (minimum test results required). You cannot be considered for an offer to a nursing course until you have uploaded your test results to your UAC application.

Note: ANMAC does not accept the TOEFL iBT Special Home Edition or the IELTS Indicator online tests as suitable to meet English language proficiency requirements for admission to nursing courses.

[English language tests accepted by each institution](#)

More details here:

The Simpson Prize – National Competition

Closes 5 November 2021

The Simpson Prize is a national competition for Year 9 and 10 students that focuses on the service of Australians in World War I. One winner and one runner-up from each State and Territory will participate in a three-day program in Canberra in early 2022. Winning students will also travel to key historical and commemorative site/s across Australia noting that the final itinerary is subject to confirmation.* Subject to COVID19 restrictions.

Question

To what extent have the Gallipoli campaign and the Western Front overshadowed other significant aspects of Australians' experience of the First World War?

<http://www.simpsonprize.org/>

HSC Guide For Students – Charles Sturt University Support

Welcome to the Charles Sturt University HSC Library Resource Guide for Senior Secondary Students.

This guide will offer you resources, information and advice, that will help you during preparation for your HSC. It may assist both students and teachers but please note that it is not intended to replace advice from your school.

We've included:

- links to past exams and study guides
- free online resources for each year 12 subject or stream
- free multidisciplinary resources.

What CSU has to offer

If you live near one of our campuses, you're welcome to visit and study in our libraries during opening hours. [Campus maps are available online](#). Library opening hours and information about access is available on the [Library homepage](#).

Find out whether your school has a [reciprocal arrangement](#) with Charles Sturt University Libraries. These arrangements let you join the library, borrow resources, and access some of the Library databases.
