

Subject Careers News Bulletin

ALL YOUR LATEST WEEKLY NEWS

NOVEMBER 18, 2021

IMPORTANT MESSAGE TO HEAD TEACHERS and ALL STAFF to Students and to Parents,

It may only take one piece of news to lead a student towards success in their life's career.

If you know students enjoy your subject, this is a great way to assist them, so please encourage them to take part in those events mentioned below in your Subject Area. Find below a listing of special careers news that have also been emailed out to many of our students and their parents.

SPECIAL MESSAGE REGARDING EVENTS LISTED AND COVID-19

Events listed are presented as reported from the home website at the time of collection from the news source. We strongly advise you check directly with the event organisers regarding the delivery of the event due to current restrictions.

HSC SUBJECT KLA / FACULTIES

CAPA

Dance, Drama, Music, Visual Arts

Southern Cross University 2021 Bachelor of Art and Design Graduate Exhibition

Up to 24 November 2021

We hold this event every year on the traditional land of the Widjabal People on Bundjalung country, with the acknowledgment and commitment to the First Nations Peoples of this land. We would like to acknowledge the Widjabal people as the original owners of the land where we create, work and live. We pay our respects to their Elders, past, present and emerging, and recognise that sovereignty was never ceded.

UNSW Reinventing Telecommunications

25 November 2021. 5.30pm

COVID-19 has illustrated just how critically we depend on telecommunications. However, COVID-19 has only accelerated the rapid transitions that the telecommunications industry was already experiencing. New technologies are enabling new services and new business models.

How can Australia leverage this disruption? How can we produce a workforce with the right skillset? What are the challenges faced by industry? With Australia's unique telecommunications infrastructure, how can industry take advantage of opportunities to innovate and design the next generation of applications and services?

The UNSW School of Electrical Engineering and Telecommunications (EE&T) Alumni Committee is pleased to invite you to our much-anticipated event where our panel of experts will discuss the current and the future state of the telecommunication industry.

<https://www.events.unsw.edu.au/event/reinventing-telecommunications>

University of Newcastle - Startup Stories - Justin Bain (3ME)

1 December 2021. 8am to 9am

3ME has been a Hunter based engineering business for over a decade, but it wasn't until 2016 when Justin Bain and his new ownership team came in and realised there was potential in the electrification of underground equipment. In the proceeding years the Justin and the team have worked hard to develop a powerful, scalable, lithium-ion battery system to replace the diesel-powered engines used in large industrial vehicles in mining and defence. The result is the Bladevolt. It is made up of a series of blades in a hard battery box basically. Each blade is also remotely monitored by the 3ME team so when it's time for maintenance they can be swapped out and if an adverse event occurs, 3ME can pinpoint the problem. The blade can then be pulled out by virtually anyone, replaced and the damaged blade sent to 3ME for a service.

That switch to a cleantech company and the Bladevolt release has led to a huge couple of weeks this year for 3ME.

The team have taken out top spot in this year's AFR BOSS Most Innovative Companies list in the agriculture and mining sector, the company also scored a \$15 million investment from the Australian Business Growth Fund.

Join us for Startup Stories and hear how Justin and the 3ME team are building Australia's sovereign capability in defence and learn how they're leveraging their new funding to move into new markets.

ANU How gravity rules the world

27 November 2021. 2pm

Gravity is a fundamental force that keeps the universe glued together.

At the same time, gravity is strong enough to prevent you from floating off into space from Earth, and weak enough that a young star can defeat gravity by picking up an apple from the ground.

It is weird. We will explore the extreme large-scale Universe by observing the Sun to see how massive objects like the Sun and black holes bend and warp space with a fabric spacetime table that we will construct with you.

<https://www.anu.edu.au/events/how-gravity-rules-the-world>

ANU - Is AI Good for the Planet?

30 November 2021. 6pm

We often think of Artificial Intelligence (AI) as a thing of the immediate future. We are constantly bombarded by slogans of AI coming to change our life, whether we like it or not. We are reassured it will be a better life. A better capitalism. A better environment. From smart devices, to home voice assistants, image recognition and translation, AI is offered as the solution to the greatest challenges of this age. This portrayal of AI as a benevolent deity has a crucial effect: it obfuscates the materiality of the infrastructures and devices that are central to its functioning. In her new book *Is AI Good for the Planet?* (Polity, 2021) Benedetta Brevini asks us to think about AI in a different, and more material way than most of us have in the past.

<https://www.anu.edu.au/events/is-ai-good-for-the-planet-by-benedetta-brevini-book-launch-online>

UOW College - Nursing Online Info Session

Wednesday, 12 January 2022. 5:30 PM - 6:30 PM

Want to be a Nurse?

Thinking about studying the Diploma of Nursing at UOW College or already have an offer and still need answers?

Don't worry we've got you covered. Please join us for our upcoming online info session to find out how to become an enrolled nurse or progress onto the Bachelor of Nursing at UOW in just 18 months. We will provide an overview of course structure, entry requirements, job outcomes, scholarships available, VET student loans and current remote online delivery mode for this course. Staff will be available on the night to answer any questions you may have. Applications are open now! Classes start in February 2022.

Once you register, we will send you an email with further information on how to join us on the night.

CSIRO Undergraduate traineeships

Complete your undergraduate student placement in a discipline relevant to CSIRO's work to further your learning and build long-lasting professional networks.

Calling all tertiary students! Complete your compulsory work placement with us and work alongside leading scientists in an area of interest, and learn from the best while build long-lasting professional networks.

About our industrial traineeships

Bring to life what you're learning in your degree in a real world environment and rub shoulders with some of the greatest scientific minds that our country has to offer!

Here's what you need to know

Undergraduate traineeships provide an opportunity for undergraduate students to immerse themselves in an innovative environment to gain valuable skills and experience that you won't find anywhere else. Students must be required to complete a placement as a compulsory or elective component of their undergraduate tertiary study which may include Honours project supervision.

Traineeship placements are usually for 3-12 months and are available across a range of research and non-research functions. The number of placement opportunities varies each year and is based on projects on offer at the time of inquiry.

<https://www.csiro.au/en/Careers/Studentships/Industrial-traineeships>

Meet the Scientists ANSTO

From fusion to climate change. A topic for every budding scientist is available!

Choose from our list of research topics and let your students lead a 30 minute Q&A session with our ANSTO experts. Dial-in from school via Zoom for this free videoconference with our scientists.

This **learning program** is designed to address:

- Science as a Human Endeavour and Science Inquiry Skills content descriptors for Years 5-10.
- Skill outcomes for Year 11 and 12 science subjects.

Our staff are experienced science communicators and can discuss ANSTO's research with primary or secondary classes at an appropriate level of detail.

Please ensure your students do some pre-reading about the research topic and come prepared with questions to ask during the session. We also ask that teachers send us a copy of the student questions the day before, so we can let the scientists know what to expect.

Teachers must be present during the session with their students.

<https://www.ansto.gov.au/education/secondary/videoconferences/meet-an-expert>

Connect with ANSTO's Women in STEM

ANSTO is committed to supporting the next generation of women in STEM. We are offering a range of opportunities for our female STEM leaders to connect with students from across Australia.

ANSTO's STEM professionals are available to connect and inspire your students.

Choose from a wide listing of successful women in STEM.

University of Sydney - Sign up for ARTiculate Talk Series

Upcoming topics will be announced in early 2022.

A unique opportunity to gain insights into arts and social sciences topics beyond the classroom. Engage with the top minds from the University of Sydney. Our ARTiculate virtual talk series aims to support high school students to enrich their understanding in subjects related to arts, humanities and social sciences, and serve as a resource to teachers. The series explores key ideas in the disciplines and provides insights into the selected topics.

Designed and delivered by academic experts in the field, each talk complements the knowledge students gain in the classroom, while providing a unique opportunity to engage with leading academics from the University of Sydney.

To attend these virtual series, a supervising adult must be present throughout the duration of the workshop.

[Sign up for our high school mailing list](#) to stay up to date with our high school programs.

VET COURSES

Start at TAFE and finish at University with a Degree - TAFE NSW Credit Transfer

Check credittransfer.tafensw.edu.au when helping your students to see how many Credit Points a TAFE NSW qualification can give them for a degree with an Australian University. With around 3,000 pathways available.

<https://credittransfer.tafensw.edu.au/>

Now see what TAFE course you can do to get credit transfer to the Unis you like

UTS, Universities of Western Sydney, Canberra, Wollongong, Newcastle, ACU and more!

The listing is now sorted in order of Universities.

Find your favourite Uni on the right hand side.

Then look what they offer on the left.

Click a degree you like and see what TAFE Course you could do in order to receive your Credit Transfer into the Uni of your choice.

This is a valuable avenue to get where you want to go.

<https://credittransfer.tafensw.edu.au/home.htm?q=&sc=2&so=0>

TAFE NSW –Apprenticeships & Traineeships

Here is a great quick summary all about apprenticeships, traineeships, school based apprenticeships and pre-apprenticeship courses. It covers how long they take and who can apply for these opportunities.

From Barangaroo to the Light Rail project, from WestConnex to new residential builds, New South Wales is a state in construction. We need apprentices. We need to build a strong pipeline of skilled tradespeople.

The NSW Government recognises this and has now made it even easier for you to become (or employ) an apprentice. They're investing over \$285 million to fund the qualification fees for 100,000 new apprentices. So what are you waiting for? Become an apprentice today.

<https://www.tafensw.edu.au/study/types-courses/apprenticeships-traineeships>

Get a job in a career you love with a fee-free* Traineeship

With the NSW Government committing to paying the course cost for 70,000 new traineeships, there's never been a better time to enrol at TAFE NSW in a government funded traineeship course.

Traineeships combine on-the-job training with formal study to give you the skills and experience employers are looking for. Generally taking around 1-2 years to complete, traineeships offer you the opportunity to earn a salary while you learn.

[TAFE NSW offers a range of traineeship courses](#) covering many industries including early childhood, health and allied services, business, IT, hospitality and warehouse operations.

Traineeships are a to well-paid jobs in a diverse range of careers. In NSW, traineeships are also fee-free*

<https://www.tafensw.edu.au/fee-free-traineeships>

8 dream careers that are real

Yes, targeting skills shortages and skilling for the digital revolution are good. But maybe thinking outside the box can also work. Maybe you can do it all!

Everyone's got an opinion about skills needs and your study options. You can take a [traineeship](#) after advice from the [Productivity Commission](#) all the way to a [degree leading to a great career](#).

Following your dreams can work too, because when you pursue your career with TAFE NSW, it's all about making that dream a reality. While you're checking out the below 8 amazing careers that TAFE NSW can take you to, also remember that with [TAFE NSW Scholarships](#), your dream career can be even more achievable.
