

25 August 2022

Dear Parents and Carers,

Year 8 students will soon have the opportunity to choose two elective courses that they wish to study in Years 9 and 10, attached to this email is a handbook outlining the subjects offered at St Edward's. This is also located on the [College Website](#).

Boys will be required to choose two elective subjects and two reserve subjects. Our advice to the students is to always choose electives that are of genuine interest and subjects that they will enjoy doing. There is no link to doing subjects in Years 9 and 10 to the electives in Years 11 and 12.

Families are invited to attend a Information Night in the College ERC on **Thursday 8 September** from **6.30pm to 7.30pm**.

Students will be using an online program called EDVAL to make their subject selections, instructions and a unique web code will be given to students during Maths lessons following the information night.

Kind regards,

Gerry Summerhayes
Director of Curriculum
