Nairobi.

I LOVE YOU SO  
MUCH.

30/06/2022.

Dear ST. EDWARD'S COLLEGE.

-- Receive a lot of greetings from your faithful son Fredrick were and my family members. How are you? How is your health? How is your work? And finally how is your family. It is my hope that all is going on well as you had expected.

-- My family and I here in Kenya we are doing fine. The climate is cold but we are trying to keep ourselves away from it to avoid sickness. At this time we are given chance to come to the centre everyday to avoid getting ourselves into different mistakes or behaviour around the streets.

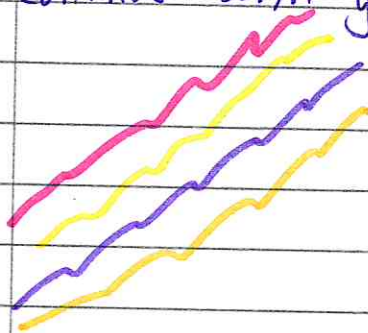

-- In Kenya we are also heading towards the general elections. They will be held on 9<sup>th</sup> of August this year. We are praying that they maybe done in a good and peaceful way. to avoid losing peoples life.

-- At school the term has been short and smooth. We have had different types of games such as vallyball and football which has enabled some of us to discover our talents. Also we have had many trips around our country. But only for those who paid it. All these activities took place even if the term was short.

-- Due to corona virus our educational academic year has been affected. These academic year would be short. Because it started in in March and it will be ending in December.

-- Lastly I want to thank God for His protection throughout the term. And it is my hope that we will meet again as long as we are a live. May God bless you so much for your good heart of sponsoring me. May you live many years to come and

continue with your good hurt of helping.

Yours Faithful son,  
Fredrick Were.

may  
COVES  
you
