Dear Parents and Carers

Re: Face to Face Learning Conferences

Face-to-Face Learning Conferences have been scheduled for this Friday, March 31. The Learning Conferences are designed to provide feedback to students and families regarding their son's learning throughout term one.

In 2021, we surveyed parents about our approach to Learning Conferences and received overwhelmingly positive feedback. Parents appreciated the convenience of meeting with their son's teachers in person, rather than via an online conference. By scheduling the Conferences throughout the day, we are also able to provide more timeslots for parents to attend these meetings.

There will be no lessons scheduled for the day and students are not required to attend school. This allows teachers to be available to meet with students and their parents. Our student leaders will be on hand to greet parents and answer any questions they may have.

I have attached a copy of the room layout indicating where each teacher is located, and I encourage families to save a copy of this on their phone for the day.

We will be seeking feedback from parents once again next week regarding the format of the Conferences and we encourage families to complete this online survey to assist us with future planning.

All students will have their Term one report uploaded to the College Portal next week which will provide further feedback. Any parents who were unable to make a booking who wish to be provided with additional feedback after receiving this report are encouraged to contact their son's teachers via email at the commencement of next term.

Kind regards

Mr Mark Bonnici
College Principal
