Dear Year 12 Parents and Carers

The Mid-Course Reports have been uploaded to the Student Portal today. The information provided on this report includes an accumulative assessment mark and rank to date in each course. Further feedback provided includes student level of achievement of outcomes and, importantly, a comment by each teacher on progress made at this stage of the HSC year. This report provides the most accurate indication of how each student is performing in relation to the requirements of each course to date.

It is important that all students take the time to read this report carefully and reflect on their effort to date. They are encouraged to seek further feedback from their teachers on how best to continue to improve their understanding of the content and skills developed. Students must make a true commitment to the establishment of a sustained program of revision and their teachers are the best source of advice.

Please do not hesitate to contact me on 4321 6400 or principal@stedwards.nsw.edu.au if you have any questions regarding the information contained in this letter.

Yours sincerely

Mark Bonnici
College Principal
