

Workshops on offer for Tuesday 5 December and Wednesday 6 December.

Please note that extension students in Maths and/or English will automatically be placed in their corresponding workshops.

Rugby League Summer Camp - An NRL inspired workshop where applicants will go through fitness tests and drills that simulate an NRL pre-season.

Tradie Basics - Learning the basics of what to expect in any trade. From the do's and don'ts to basic skills that you should know if you want to enter into a trade or have some "hands on" experience for the future.

Asian Cuisine Masterclass - Investigating the popularity of Asian Cuisine in Australia. A hands-on workshop where you prepare and enjoy an authentic Asian meal.

Kayaking For Fun - Learn kayaking skills and water safety so you can feel confident and enjoy the thrill or serenity of kayaking.

GrooveLab: Designing Music for Impact - Creating Music either digitally or acoustically for a purpose. You will collaborate in small groups to work on a soundscape for a video. You have a choice of 3 styles of video to compose for.

Wheels and Wallets: A Guide to Buying and Owning a Used Car - Rev up your knowledge and take the wheel with 'Wheels and Wallets: A Guide to Buying and Owning a Used Car.' This course is your road map to confident car ownership, helping you navigate the world of secondhand vehicles, from smart buying choices to mastering the art of fuel efficiency and financial responsibility. Get ready to hit the open road with wisdom and wallet-smarts!

Fact or Fiction? History through Film - Through a study of a historical film, students will determine whether the information is fact or fiction and why changes have possibly been made to the history.

Entrepreneur workshop - The side Hustles - Starting a business as a side hustle can be a smart and viable option for many entrepreneurs. But how and where do you start. Learn how.

Building your Professional digital presence - A consistent online presence can: ATTRACT ATTENTION, MAKE YOU MEMORABLE. MAKE YOU STAND OUT, EARN YOU MONEY. Learn how to build the image that you want across your socials.

Programming Introduction (Code Club) - If you like the idea of sharing your IT passion with others this workshop is for you. This short course looks at creating skills in the delivery of a 'code club' to younger students. You will be using scratch to understand structure of programming.

Literary World building - diving into Extension English - This workshop is about having a look at the possibilities in Extension English and some world building for the ideas involved in the Literary Worlds module. Using ICT or real-life materials, you will build worlds in groups based on a small selection of genres and prompts. ALL EXTENSION ENGLISH STUDENTS MUST CHOOSE THIS WORKSHOP.

Next Level Maths- Be challenged to think to infinity and beyond. This workshop will explore skills specific for extension math's students and promote your higher order problem solving skills. ALL EXTENSION MATHS STUDENTS MUST CHOOSE THIS WORKSHOP.
