Dear St. Edwards college

How are you? How is the childrens in the college doing? How is their families? How is their work moving on? I hope all is moving on well as you had expected before. The main reason as to why am writing this letter to you is to inform you on how the term has been in school and on how am going to spend my holiday.

First, it has been one of the longest term since the beginning of the year. It comprised of fourteen weeks in total. The first part had seven weeks and the second part also had seven weeks.

In terms of academics we have been working hard to make sure we have passed. In this term we have done four exams in total. Our teachers are also working hard to make sure that they complete the syllabus. In some subjects we have already finished the syllabus and started revision.

We also had some competition in academic which was a science competition and our school managed to be the second one in the competition this made us to add more effort in our learning.

A part from the academics we also had outdoor activities such as sports and music festivals. I participated in music festivals. There were different categories and we managed to win in our group and we will be proceeding to

Nationals.

Lastly, I want to take this opportunity once again to thank you for sponsoring me and may God bless you so much.

Yours Faithful.

Fredrick Were.
