

20 November 2023

Dear Parents/Carers of Year 10 students

Your son, if not on work experience, will participate in the Illuminate Enterprise Challenge here at school next week (Week 8). Illuminate Education Australia, the organisation running the challenge, requires a permission form to be completed by you. Please ask your son to check his portal to see whether he has been approved for work experience. If it is not appearing, please check your emails as there maybe action required from you.

See below link to permission form.

Permission Forms

Due to how we deliver and facilitate the challenge, Illuminate Education Australia requires permission from parents / guardians to collect data to analyse the effectiveness of the challenge and as a photography release before students can participate. These forms need to be completed online or provided to us as a hard copy form, via email or handed to facilitators during the challenge. If you or your son have any questions about this, including if you need us to resend the link, please feel free to get in contact. Students who do not have a signed form or have denied permission are still welcome to participate in the challenge, but we ask teachers to please help ensure that these students are not in any photo/videos and our team will ensure any data from these students is destroyed at the close of the challenge.

Permission forms can be completed by parents/guardians at this link:
