## 4 Policy Principles

### 4.1 General

How EREA NSW Colleges Ltd handles information collected about individuals is very important for two main reasons:

- people we deal with expect us to handle their personal information properly; and
- we have a legal obligation to do so.

There are substantial penalties for serious or repeated breaches of the Privacy Act, the APPs and the HPPs.

Non-compliance with our privacy obligations also poses a risk of reputational damage to schools and the organisation if the privacy of an individual is breached, and further damaged if the breach is managed poorly.

#### Exceptions

##### Child Safety

In accordance with Ch16A of the Children and Young Persons (Care & Protection) Act 1988 (CARE Act), EREA NSW Colleges Ltd may share or receive information about students and other relevant people with external agencies or individuals, both verbally and in writing, in certain circumstances and for particular purposes relating to the safety and welfare of children and young people. This information can be shared without the consent of the relevant individual or, in the case of a student, of their parent/carer. The CARE Act overrides the privacy requirements of the Privacy Act.

##### Employee Records

Under the Privacy Act and Health Records and Information Privacy Act, the Australian Privacy Principles and Health Privacy Principles do not apply to an employee record. As a result, this Privacy Policy does not apply to EREA NSW Colleges Ltd collection, use, disclosure, or handling of an employee record, where the collection, use, disclosure or handling of an employee record is directly related to a current or former employment relationship between the entity and employee. However, EREA NSW Colleges Ltd treats employee's information with the same care and diligence as if these records were covered by the Privacy Act.

## 4.2 Types of information collected

In the course of providing services and conducting its operations, as part of our recruitment processes for employees, contractors and volunteers, and the delivery of education services to students, EREA NSW Colleges Ltd may collect and hold:

- Personal information including names, addresses and other contact details; dates of birth; next of kin details; contact details of doctors, photographic images; videos; attendance records; financial information, citizenship, employment references, regulatory accreditation, media, directorships, property ownership and driver's licence information.
- Sensitive information (particularly in relation to student and parent records) including but not limited to government identifiers (such as TFN), religious beliefs, nationality, country of birth, financial hardship, professional memberships, family court orders and criminal records.
- Health information including medical records, disabilities, immunisation details and psychological reports.

We will seek consent from an individual in writing before we collect their sensitive information (including health information), unless it is not reasonable and practical to collect the personal information from the individual directly.

## 4.3 Methods of collection

The collection of personal information depends on the circumstances in which EREA NSW Colleges Ltd is collecting it. If it is reasonable and practical to do so, we collect personal information directly from the individual. Where the individual is a child that does not have capacity (in our reasonable opinion) to provide their personal information, we will generally collect the information from their parent(s) or carer(s).

EREA NSW Colleges Ltd has, where possible, attempted to standardise the collection of personal information by using specifically designed forms (e.g. an Enrolment Form or Health Information Disclosure Form). However, given the nature of our operations we also receive personal information by email, letters, notes, via our website(s), social media platforms, over the telephone, in face-to-face meetings, through financial transactions and through surveillance activities such as the use of CCTV security cameras or email monitoring.

We may also collect personal information from other people (e.g. a third-party administrator, referees for prospective employees) or independent sources. However, we will only do so where it is not reasonable and practical to collect the personal information from the individual directly. We may collect information based on how individuals use our websites across the entirety of EREA NSW Colleges Ltd. We use "cookies" and other data collection methods to collect information on website activity such as the number of visitors, the number of pages viewed and the internet advertisements which bring visitors to our website(s). This information is collected to analyse and improve our website, marketing campaigns and to record statistics on web traffic. We do not use this information to personally identify individuals.

EREA NSW Colleges Ltd may be provided with personal information without having sought it through our normal means of collection. This is known as "unsolicited information" and is often collected by:

- misdirected postal mail- letters, notes, documents
- misdirected electronic mail- emails, electronic messages

- employment applications sent to us that are not in response to an advertised vacancy
- additional information provided to us which was not requested.

Unsolicited information obtained by EREA NSW Colleges Ltd will only be held, used and or disclosed if it is considered as personal information that could have been collected by normal means. If that unsolicited information could not have been collected by normal means, then we will, if we are able, destroy, permanently delete or de-identify the personal information as appropriate.

EREA NSW Colleges Ltd will only collect sensitive information if it is:

- reasonably necessary for one or more of the disclosed functions or activities, and we have the individual's consent (or if the individual is a child without the capacity the consent in our reasonable opinion, the consent of his or her parent or guardian)
- necessary to lessen or prevent a serious threat to life, health or safety
